

Internship

Business Development Representative

We are an ambitious European scale-up offering an Intelligent Automation solution that helps businesses to provide better customer experiences and reduce workloads. We automate everyday cognitive tasks with the use of the latest artificial intelligence and machine learning techniques.

Join Contract.fit in a Business Development Representative (BDR) internship to build up a wide range of experiences, knowledge and network and have a huge impact on Contract.fit's global growth!

What will you do?

- Make phone calls and emails to prospective outbound clients. Understand our product and customer needs to ensure we are a good match for them.
- Qualify prospects & set up meetings for the account executives.
- Reach out to relevant contacts and build up connections via email, LinkedIn and/or phone
- Strategize with the sales on which companies to target (ICPs) and collaborate with marketing to ensure alignment on the message and content.
- Work towards your individual and team's sales targets

Who are you?

- Excellent written & verbal business English + at least one other language (NL/FR/DE).
- A proactive, results oriented personality, comfortable working with customers.
- Excellent time-management and prioritizing abilities.
- Insatiable desire to grow yourself, your team and the company.
- Ability to be a self-starter in a fast-paced environment.
- Ambition to build a career in sales.
- Tons of energy.

What do we offer you?

- A unique opportunity to work in a promising and fast-growing scale up.
- Be part of a high-performing team working on cutting edge technology that is transforming the world.
- A great multicultural team and learning environment.
- Team building activities, after work drinks, etc.

Intelligent Automation

Contract.fit helps companies to improve the customer experience and reduce costs by turning documents and emails into actionable data that can be extracted, classified and validated.
