

Senior Delivery Manager

We are an ambitious scale-up that offers an intelligent automation product. We help our clients provide better customer experiences and reduce workloads by automating everyday cognitive tasks.

We are looking for a highly motivated Senior Delivery Manager with a keen interest in disruptive technologies and excellent organizational and analytical skills to further scale our company.

What will you do?

- Your main responsibility will be ensuring the contract.fit SaaS solution gets successfully implemented for our enterprise clients
- More concretely you will be doing the following
 - End to end follow up of client trajectory from signature to go live
 - Scope the project and perform fit gap analysis with the contract.fit solution
 - Set up a realistic delivery, capacity and test planning and ensure it gets executed
 - Be the single point of contact for the client's your following up
- You will also be helping to further set up, implement and or improve internal delivery processes
- Assist in aligning the sales and delivery team

Who are you?

- You have experience with implementation of core IT solutions in complex environments and in enterprise setting
- Ideally you have concrete experience in delivery or project management. Other experiences such as business/functional analysis or testing are also very relevant
- You have a can-do mentality and possess the necessary flexibility and energy to work in a very ambitious scale-up
- Interested in disruptive technologies and seeking to shape the future for the better
- You speak fluent English. Speaking one of the following languages is a plus: French, German, Dutch

What do we offer you?

- A unique opportunity to work in a promising and fast-growing scale-up
- Be part of a team working on cutting edge technology that is transforming the world
- Possibility to learn, grow and further develop your career
- An attractive salary and bonus scheme
- A company car or public transport subscription
- Team building activities, after-work drinks, etc.
